## tips

**Send Head or Head and chest photos.** These are small canvases.

Take several photos and pick the best one! Natural lighting from a window can be a big help. If your photo is dark and blurry - you will get a dark and blurry portrait :(

**Backgrounds** are best when simple. I can paint the color of your choice. I would recommend using a color that is in your pet's coloring or similar to a color in the photo. Example, pick up a shade of the color in your pets collar.
